

SHOULD I BE TAKING PREP?

PREP IS SAFE AND
EFFECTIVE FOR:

MEN WHO LOVE MEN

Account for 62% of new HIV infections in Utah.

PEOPLE WHO INJECT DRUGS

PrEP greatly reduces HIV risk when sharing needles.

PEOPLE OF TRANS EXPERIENCE

PrEP doesn't affect gender-affirming hormones and is just as effective.

YOUTH

PrEP is safe and effective for folks younger than 18.

WOMEN

PrEP won't interfere with birth control.

PrEP is currently available for everyone, just ask your doctor.

Not sure where to go to get PrEP? Find a clinic.
